BOARD OF TRUSTEES.

Rev. G. W. Clarke, D. D., Rev. N. Norton,

Hon. H. L. Richmond.

OFFICERS OF INSTRUCTION AND GOVERNMENT.

REV. LUCIUS H BUGBEE, D D.,

PRESIDENT,

Chamberlain Professor of Philosophy and Christian Evidences.

REV. JONATHAN HAMNETT, D. D.,

VICE PRESIDENT,

Professor of Mathematics and Astronomy.

REV. LUCIUS H. BUGBEE, D. D.,

Kramer Professor of Biblical Literature.

JEREMIAH TINGLEY, A. M, Ph. D.,

Professor of Physics and Chemistry.

REV. AMMI B. HYDE, D. D.,

Professor of Greek and Hebrew.

CHARLES W. REID, A. M.,

Professor of Modern Languages and Literature.

GEO. W. HASKINS, A. M.,

Bradley Professor of Latin Language and Literature.

FIRST LIEUT. FRANK W. HESS, U S. A.,

Professor of Military Science and Tactics.

JOHN S. McKAY, A. B.,

Instructor in Preparatory School.

NATHAN SHEPPARD, A. M.,

Lecturer on English Literature and Public Speaking.

REV. W. W. WYTHE, M. D.,

Lecturer on Mechanical Philosophy.

JEREMIAH TINGLEY, A. M.,

Curator and Librarian.

GEO. W. HASKINS, A. M.,

Secretary of the Faculty.

JAMES H. MONTGOMERY, A. B.,

Assistant in Laboratories.

THE CHARTER.

This Instrument, obtained from the Legislature of the Commonwealth of Pennsylvania, March 24, 1817, provides "for the education of youth, in the learned Ancient and Modern Languages, in the Liberal Arts and Sciences, and in all useful Literature."

The following schools have been organized, and are now in progress :

The School of Liberal Arts.

The School of Science.

The School of Latin and Modern Languages.

The School of Hebrew and Biblical Literature.

The School of Military Science and Tactics.

The School of Preparation for College.

The Schools.

THE COLLEGE.

THE SCHOOL OF LIBERAL ARTS, - organized 1817.

THE SCHOOL OF SCIENCE, - - - - organized 1865.

THE SCHOOL OF HEBREW AND BIBLICAL LITERATURE, - organized 1865.

THE SCHOOL OF LATIN AND MODERN LANGUAGES, - organized 1877.

FACULTY.

REV. LUCIUS H. BUGBEE, D. D.,
PRESIDENT,
Philosophy and Christian Evidences.

REV. JONATHAN HAMNETT, D. D.,
Mathematics.

JEREMIAH TINGLEY, A. M., Ph. D.,
Physics and Chemistry.

REV. AMMI B. HYDE, D. D.,
Greek and Hebrew.

CHARLES W. REID, A. M.,
Modern Languages.

GEORGE W. HASKINS, A. M.,
Latin.

STUDENTS.

SENIOR CLASS.

William Crozier Bear, - - - *Erie, Pa.*

George Howard Huffman, - - *Pleasant Unity, Pa.*

Louise McClintock, - - - *Meadville, Pa.*

William Elwin McDowell, - - *Conneautville, Pa.*

James H. Montgomery, - - *Conneautville, Pa.*

Alfred S. Morrison, - - - - *Meadville, Pa.*

William Warren Shilling, - - *Wheatland, Pa.*

Ida Minerva Tarbell, - - - *Titusville, Pa.*

William Harbaugh White, - *Sewickley, Pa.*

William Clayton Wilson, - - *Fredonia, N. Y.*

Samuel Emanuel Winger, - *Meadville, Pa.*

ADMISSION.

Candidates for admission to the Freshman Class are required to pass a satisfactory examination in the following subjects:

LATIN.

- Latin Grammar, including Prosody—Harkness preferred.
- Latin Prose Composition—Harkness preferred.
- Sallust—Catilinarian War, or Allen's Latin Selections.
- Cicero—Eight Orations.
- Virgil—The Bucolics, and Six Books of the Æneid.

GREEK.

- Greek Grammar—Goodwin's preferred.
- Greek Lessons—Goodwin's preferred.
- Xenophon—Anabasis, four books.
- Greek Reader—Goodwin's.

OR,

MODERN LANGUAGES.

- Six Terms.

MATHEMATICS AND ENGLISH.

- Arithmetic.
- Algebra.
- Geometry—Three books.
- History—General facts.
- English Grammar and Orthography.

SCIENCE.

- Physiology.
- Elements of Natural Philosophy.
- Elements of Botany.

REMARKS.

The examinations in the common English branches will be insisted upon with no less care than the Languages and Mathematics. Candidates for admission to the *School of Liberal Arts*, to the *School of Science*, and to the *School of Hebrew and Biblical Literature* are required to pass examination in the same studies or subjects. Candidates for admission to the *School of Latin and Modern Languages* are required to pass examination in an equivalent of Modern Languages in the place of Greek. Candidates for higher standing are examined as above, and also in the studies gone over by the class to which they may desire admission

The stated times for examination are Wednesday before commencement, at 9 o'clock, A. M., and the two days preceding the opening of the Fall Term, (this year Sept. 19th) the same hour. In special cases candidates may be examined and admitted at other times in the year, excepting that no admission to the Senior Class will be allowed later than the beginning of the second term. Candidates for examination will first call at the President's office in Bentley Hall, when further directions will be given.

Those who apply for examination on the days above named should be careful to be punctual at the stated hour.

The place for examination will be Bentley Hall.

Pupils coming from accredited colleges with honorable dismis-mission, and certificates of critical scholarship in certain studies, will be credited those studies.

In all cases, students coming from other colleges, must present testimonials of good moral character and standing, and a certificate of regular dismissal. These should be presented to the President at the time of application.

No one can enter the Freshman class until the age of fifteen.

Young men and young women are admitted to the different schools of the College upon the same terms.

COURSE OF STUDY

IN THE

SCHOOL OF LIBERAL ARTS.

FRESHMAN YEAR.

FIRST TERM.
- Livy—Roman History.
- Homer's Iliad.
- Geometry, Conic Sections, } one recitation.
- Botany, finished, Zoology, begun, } one recitation.

SECOND TERM.
- Horace—Odes and Satires.
- Memorabilia.
- Trigonometry—Plane and Spherical.
- Zoology, completed.

THIRD TERM.
- Horace—Ars Poetica and Epistles.
- Plato.
- Surveying.
- Chemistry.

Composition and Declamation throughout the year.

SOPHOMORE YEAR.

FIRST TERM.
- Tacitus—Germania and Agricola, Latin Composition.
- Thucydides.
- Analytical Geometry, begun.
- Chemistry.

SECOND TERM.
- Tacitus Histories—Latin Composition.
- Greek Tragedy.
- Analytical Geometry, finished.
- Chemistry.

THIRD TERM.
- Cicero de Officiis.
- Calculus—Differential and Integral.
- Greek and Lectures on Greek Literature and Philology.
- Mineralogy.

Composition and Declamation through the year.

JUNIOR YEAR.

FIRST TERM.
- Physics.
- Art of Discourse.
- History of English Literature.
- History of Roman Literature.

SECOND TERM.
- Physics.
- Logic.
- Mental Philosophy.
- History of Roman Literature.

THIRD TERM.
- Physics.
- Astronomy.
- Evidences of Christianity.

Composition and Speeches during the year.

SENIOR YEAR.

FIRST TERM.
- History of Philosophy.
- Physics—Meteorology.
- Butler's Analogy.

SECOND TERM.
- Geology.
- Constitution of the United States.
- Social and National Economy.
- Art Criticism.

THIRD TERM.
- Geology.
- Moral Philosophy.
- International Law.

Essays and Practical Speeches during the year.

EXPLANATIONS.

The School of Liberal Arts, organized 1817, combines all the excellences of the time honored classical course. By immemorial use it has been proven to be the staple course, and is worthy of the confidence and respect which a long and venerated observance gives. For a full and harmonious preparation for the varied professions and employments of life, it is unexcelled. The preparation required for entrance upon this course is three years of Latin; two years of Greek; Mathematics, through three Books of Geometry; the Elements of Natural Philosophy, Physiology and Botany, and the usual amount of English and History. The student will see the conditions of admission on page 21.

The School of Science, organized in 1865, requires the same preparation as the above. In the college years, the French and German Languages take the place of the Freshman and Sophomore Greek, the Sophomore Latin and the Junior Roman Literature. This course opens up the treasures of Science in the Modern Languages, and by extensive Laboratory practice, and the choice line of Scientific studies prepares the student for further researches in science. Young men and women, looking toward chairs of science in schools and colleges, will find this course especially adapted to them.

The School of Hebrew and Biblical Literature, organized in 1855, and reorganized in 1865, requires the same preparation as the Classical Course, and in the college years the same as the Classical Department, with the exception of the substitution of six terms in Hebrew for the same number of terms in Latin, Greek and Mathematics, and three terms in Biblical Literature for three terms of certain studies in the Senior year, with the addition of two terms in Greek-New-Testament. This course is designed to accommodate young men contemplating the ministry. Its completion gives one full year's advancement in the Theological Seminary.

The School of Latin and Modern Languages. organized in 1877, requires the same preparation as the above courses, with this excep-

tion, that six terms of French are substituted for the six terms of Greek in the second and third preparatory years, and, after entrance upon the Freshman year, six terms of German are substituted for the Greek of the Freshman and Sophomore years. This course has been adopted in order to accommodate students who prefer to leave out the Greek entirely and give more time to Latin and Modern Languages.

EXAMINATIONS.

There will be three examinations of classes during the year. The first will be held on the last three days of the Fall Term. The second on the last three days of the Winter Term. The third will begin a week previous to Commencement.

CLASSIFICATION.

The Classification in the Catalogue is made at the close of the College Year, and gives the class-rank for the year.

A student having completed the studies of the Preparatory Course or their equivalent and Freshman year, less five, can take rank as Freshman. Having completed the above and the studies of the Sophomore year, less four, he can take rank as Sophomore. Having completed all the above and the studies of the Junior year, less three, he can take rank as Junior For graduation he must complete the studies of the entire course.

DEGREES.

The Degree of Bachelor of Arts will be conferred upon those who complete in a satisfactory manner, either of the four College courses of study.

The Degree of Master of Arts may be conferred in course on every Bachelor of Arts of three years standing, who has been engaged since his graduation in some literary occupation, and has sustained a good moral character. Application should be made to the President as early as the Monday preceding Commencement, advancing the usual fee of Five Dollars.

ALLEGHENY COLLEGE.

LOCATION.

The location of Allegheny College is most fortunate. The Atlantic and Great Western Railroad passes through Meadville. It is one of the central points on this great through line from East to West. The population is 12,000. It is an old and well-established city. The society is cultured, and the homes beautiful. The location is unusually healthful; it is 500 feet above Lake Erie, and there are no miasmatic districts about it. The city is furnished with gas and water, and the location upon the outstretching hillsides, as they rise from the beautiful valley of French Creek, makes the drainage excellent. The surrounding country is one of the richest sections of the Keystone State. The College Charter dates back to 1817. It is a very liberal charter. The Trustees, under the Charter, are now joined with the Conferences, by the appended contract, in conducting the College upon liberal principles, and they are seeking gradually to enlarge its field of usefulness, by adding such schools from time to time as the increasing revenue may warrant. In proportion as liberal-minded men and women give to its endowment and resources, the largest hopes of its friends will be realized.

REVISED COMPACT.

Whereas, A compact has existed between the Trustees of Allegheny College and the Pittsburgh Annual Conference of the Methodist Episcopal Church, which was approved and adopted by the Board on the 31st of July, A. D. 1832, by which compact the College was placed under the patronage of said Conference, or, in case of a division of the Conference, under the patronage of the Conference which should include it.

And, Whereas, By subsequent division of the Conference, the College has fallen within the bounds of the Erie Annual Conference, but by mutual arrangement of the Conferences, and the concurrence

of the Board of Trustees, the College has been brought under the joint patronage of the Erie, Pittsburgh and West Virginia Conferences; and, it is therefore desirable that the original Articles of Convention should be so modified as to conform them to the existing joint patronage of the three conferences;

Therefore, the undersigned, committees of said Conferences and of the Board of Trustees, having met in the city of Pittsburgh, on this 21st day of October, A. D. 1857, do agree on the following as a substitute for the original Articles of Agreement:

ARTICLE 1. The Board of Trustees, for the purpose of carrying into effect the objects contemplated in the Charter of the Institution, place the College under the joint patronage of the Erie, Pittsburgh, and Western Virginia Annual Conferences of the Methodist Episcopal Church.

ART. 2. The Trustees shall not contract debts on behalf of the Institution without the consent of the Conferences.

ART. 3. Each Conference shall at its annual session appoint a committee to act on its behalf during the interval of conference.

ART. 4. The Conferences, through their committees, shall have the privilege of nominating persons to fill all vacancies that exist, or may hereafter exist in the Board of Trustees, in manner as follows, to wit: For each vacancy they shall name three persons, out of which the Trustees shall select and appoint one.

ART 5. The Conferences, through their committees, shall have the nomination of President and Faculty of the College; and of fixing their respective salaries, subject to the approbation of the Board of Trustees.

ART. 6. The President, or any member of the Faculty, shall be removed by the Board for improper conduct, or for incompetency, or inefficiency in duty, on the request of the committees of the conferences.

ART. 7. The Institution shall be conducted, as the Charter requires, on liberal principles, no person having any advantage, or being subject to any disadvantage, on account of his religious views.

ART. 8. If this compact shall be dissolved by any means, the Conferences shall retain their Endowment, together with any books, &c., which they may have furnished; which may be removed to any other place or institution.

ART. 9. The Trustees shall make annual report to the patronizing Conferences, setting forth the state of the finances of the College,

the number and progress of the students, and the character of the Faculty in regard to efficiency in duty; and informing the Conferences of any amendments, alterations or extensions in the plan of operations, in which the approbation or cooperation of the Conferences may be required.

ART. 10 Any provision in the original articles of convention between the Trustees and the Pittsburgh Conference inconsistent with this agreement, or not embraced in it, is hereby revoked.

ART. 11. This agreement shall be in force when it shall have been sanctioned by the patronizing Conferences and the Board of Trustees.

COLLEGE DEPARTMENTS.

PRESIDENT'S DEPARTMENT.

Instruction is given by the President in Art of Discourse, English Literature, Logic, Mental Philosophy, Evidences of Christianity, History of Philosophy, Butler's Analogy, Constitution of the United States, Social and National Economy, Art Criticism, Moral Philosophy, International Law, and Biblical Literature. These subjects of study will be accompanied with Lectures, bearing upon certain sections of the various branches. The lectures will be familiar, practical talks, rather than stated and formal discourses. The aim in the Instructions and Lectures will be to put the student into intimate sympathy with the themes of study, in order to an interested and practical discussion of the important subjects involved in these several branches.

MATHEMATICS AND ASTRONOMY.

To the complete course in pure Mathematics is added the application of Geometry and Trigonometry to Surveying and Elementary Engineering. Compass, Chains, Transit, and all other necessary instruments, are furnished and practically used in the field.

To these branches are devoted five recitations per week through the Freshman and Sophomore years, and the third term of Junior year. The subject of Astronomy can be pursued most advantageously. It is hoped that the splendid telescope of the College—the gift of Hon. G. B. Delamater—will be in better shape to be used at no distant day.

The Telescope is an 8 feet refractor, $7\frac{1}{2}$ inches Object Glass, in power capable of separating minute double stars; manufactured by A. Clark & Son, Cambridge, Mass. There is also a superb Transit from the hands of Stackpole Bros., New York. These instruments are temporarily mounted, waiting the erection of a suitable Observatory. In addition there are a Sextant, a Transit with Meridian Finder, a Prismatic Compass, and other instruments essential to the department of Engineering, all of first class workmanship and practically used in the field.

DEPARTMENT OF NATURAL SCIENCE.

The leading idea in the instruction given in Natural Science, is to prepare the student for independent research, upon the theory that such method affords at once the highest mental discipline, and most satisfactory practical knowledge. Each student, furnished with sufficient material and apparatus to enable him to do so, will constantly be stimulated to pursue his own investigations, under such guidance as will secure precision in method, and accuracy in results.

Illustrated Lectures will frequently be given to make the path clear, and the labor interesting and successful.

Botany and Zoology, commencing in the last term of the Preparatory Course, continue through two consecutive terms of the Freshman Year. In these branches the student is brought face to face with nature and required to make constant observations upon the forms and phenomena of animal and vegetable life about him. Lectures, Recitations, Drill, and Analysis of natural objects, varied according to the nature of the lessons, are in constant use.

Physics and Chemistry.—No College in America has more complete facilities for obtaining a thorough elementary knowledge of these branches. The costly and splendid apparatus, kept up to the times by occasional additions,—and the Laboratories, abundantly provided with chemicals and facilities for every kind of chemical work, make these studies unusually attractive and satisfactory. The Course in Chemistry, including Mineralogy, requires four consecutive terms; that of Physics, three additional terms.

Mineralogy and Geology.—After a severe drill with crystallographic models, continuing four weeks, Mineralogy is chiefly taught by Recitation, Lectures, Cabinet Illustrations and Excursions. With the exception of Astronomy, all the classes in Natural Science are assigned to the Chair of Physics and Chemistry.

CHEMICAL LABORATORIES.

During the past two years three large rooms, each twenty by forty feet in area, have been fitted up in the basement of Bentley Hall for Chemical Laboratories. They are furnished with water and gas and are already supplied with neat cases for materials and apparatus,

and an abundant stock of chemicals for demonstration and analysis, including a well selected cabinet of rare specimens.

When completed these laboratories will accommodate forty students with separate facilities for practical chemical and mineralogical study and analysis, according to the methods of the best Scientific Schools. They will be ready for use by the opening of the ensuing Fall Term. Arrangements will be made at an early day for post graduate courses of study in Chemistry and other branches of science.

APPARATUS AND MUSEUM.

The College possesses extensive cabinets of Mineralogy and Conchology, and complete Chemical and Philosophical apparatus of the most approved forms, mostly gifts from Hon. C. V. CULVER.

THE APPARATUS comprises several hundred distinct pieces, affording the most ample means of illustrating every branch of Physics and Chemistry now taught in Collegiate Institutions.

Among the more expensive Instruments are the following:

A compound Microscope, with accessories, manufactured by Zentmayer, of Philadelphia, at a cost of about $500.

A Rumkorff Induction Coil, giving a twelve inch spark, by E. S. Ritchie & Co., of Boston, costing $525.

A Thilorier's Apparatus for solidifying Carbonic Acid.

Eighteen Instruments to illustrate the Laws of Undulations.

Auzoux' largest size Anatomical Models of the Eye, Ear, Brain, and Larynx.

Apparatus for reproducing Tyndall's experiments on Heat.

Two Polariscopes with accessories.

A Spectroscope with four Prisms.

Complete apparatus for projection, including a first-class Educational Lantern, Oxy-Hydrogen Microscope, Duboscq's apparatus for projecting Polarized light, &c.

The Optical Instruments, excepting the Compound Microscope, Telescope, and Astronomical Transit, were made by M. Duboscq, of Paris.

THE MUSEUM embraces several distinct collections of Minerals, Shells, Fossils, &c.

1. THE PRESCOTT CABINET, comprising 2,400 specimens of marine, terrestrial and fresh water shells, and about 3,000 specimens

of Minerals and Fossils collected and mounted by Dr. WILLIAM PRESCOTT, of Concord, New Hampshire.

2. THE HALDEMAN CABINET has 550 excellent and carefully labeled specimens of Minerals, and about 2,000 species of Shells, and was purchased of S. S HALDEMAN, of Columbia, Pa.

3. THE ALGER CABINET.—This magnificent collection, made by the late FRANCIS ALGER, of Boston, was purchased at a cost of $12,000, and contains 5,000 specimens of Minerals, remarkable for their beauty and variety, many of them unique. It embraces also a large number of duplicates, and a handsome *suite* of about 1,500 specimens of Shells. This collection is said to have cost Mr. ALGER over $35,000.

4. CABINET OF LITHOLOGY AND PALÆONTOLOGY.—This contains an entire series of the well-known Ward casts, and a very comprehensive and valuable collection of fossils and rocks, to which additions are being made.

5. SMITHSONIAN COLLECTIONS.—In addition to several valuable collections heretofore received from the Smithsonian Institution, there has been added a *suite* of over 500 specimens of land, marine and fresh water shells, from Panama, Vancouver's Island, and the West Indies, chiefly obtained by the late Prof. C. A. ADAMS, and authentically labeled by H. CUMING and by Dr. P. B. CARPENTER, from the collections of D'ORBIGNY & CUMING.

6. ENTOMOLOGICAL CABINET.—The Cabinet of Insects, embraces 3,000 species, carefully and accurately catalogued and classified. It was arranged by W. O. CURRIER, of Providence, R. I., and donated by a friend of the College.

7. COLLECTIONS OF THE SCIENTIFIC CLUB.—In addition to the above named collections there are about 1,000 Zoological specimens including Birds, Reptiles, Fish and Marine animals; which are constantly being increased in number by the exertions of the Scientific Club.

These valuable collections greatly increase the scientific advantages of the College, and furnish special incentives to the study of Natural Science.

Though not all under one roof, the various rooms used by the scientific department of the College are equivalent in space to a building fifty feet square and four stories in height.

DEPARTMENT OF GREEK.

In the Preparatory Course it is designed to give the student a

critical knowledge of the forms and rules of Grammar. It is also expected that the difficulties of translation and composition will be substantially conquered.

In the Collegiate Course a large and liberal attention will be given to the style of thought and rhetoric, found in each author. In the last term lectures will be given on Greek Literature and General Philology.

The Hebrew will be taught for the present by the Professor of Greek. Pupils taking the Biblical Course will have what will be equal to one full year of Hebrew, in a regular Theological Course.

DEPARTMENT OF MODERN LANGUAGES.

The Course in French and German requires two years, and consists of daily Recitations in each of these Languages. The first two Terms are occupied with the Grammar. The student is required the first year to translate every day, upon the black-board, from the English into these languages. The second year is spent with the Classical Authors, and all Conversation, Criticisms, &c., are carried on exclusively in the language studied. Especial attention is given to speaking correctly and fluently.

Work of German Class of 1877.

Fall Term, 1875.—Keetel's Grammar,	148	pages.
Winter Term, 1876.—Keetel's Grammar,	121	"
Die Hausmaerchen,	54	"
Spring Term, 1876.—Die Hausmaerchen,	227	"
Conversation one hour per week.		
Fall Term, 1876.—Hausmaerchen, finished.	30	"
Anfang und Ende,	54	"
Die Eisjungfrau,	65	"
Conversation two hours per week.		
Winter Term, 1877.—Die Eisjungfrau, finished,	68	"
Prinzessin Ilse, finished,	38	"
Die Jungfrau von Orleans,	59	"
Conversation three hours per week.		
Spring Term, 1877.—Die Jungfrau von Orleans, finished,	76	"
Hermann und Dorothea,	93	"
Emilia Galotti,	77	"
Conversation three hours per week.		

WORK OF FRENCH CLASS OF 1877.

Fall Term, 1875.—Keetel's Grammar, - - - 234 "

Winter Term, 1876.—Keetel's Grammar, - - - 70 "
De Fiva's Classic French Reader, 10 "

Spring Term, 1876.—De Fiva's Classic French Reader, 242 "
Conversation one hour per week.

Fall Term, 1876.—De Fiva's Classic French Reader, completed, - - - - - 50 "
Fasquelle's Dumas' Napoléon, completed, - - - - - 200 "
Télémaque, - - - - - 50 "
Conversation three hours per week.

Winter Term, 1877.—Télémaque, completed, - - 332 "
La Petite Fadette, completed, - 295 "
Conversation three hours per week.

Spring Term, 1877.—Le Cid, Horace, Esther, Athalie, Le Misanthrope, - - - 225 "
Conversation three hours per week.

DEPARTMENT OF LATIN.

There will be five recitations per week in this department, running through the Freshman and Sophomore years and two terms in the Junior year, including the History of Roman Literature and Roman History. With the preparation needed for entrance upon the Freshman year, the authors and studies laid down make a most complete Latin course.

DEPARTMENT OF PUBLIC SPEAKING.

Prof. Nathan Sheppard gave in November a course of Ten Lectures before the students upon Public Speaking. He gave this course of lectures also at the Universities of Aberdeen and St. Andrews, Scotland, and they were heartily received. New interest and enthusiasm in Public Speaking have been the result of these lectures throughout the College. These lectures treat in the most practical manner of "the use of the will in public speaking;" the dramatic, colloquial and oratorical elements in public speaking; "physical earnestness;" "the art of being natural," etc., etc., and are accompanied by a severe drill in real speaking, designed to teach the student how to make the most of himself when he stands before an

audience. There is no attempt to teach "elocution" or any artificial system, nor is public speaking confounded with recitation, declamation, or dramatic reading. It is, on the contrary, regarded as the serious business of life, and all the faculties that are brought into exercise by the act of addressing a public assembly, are stimulated and disciplined by this course of lectures and exercises.

It is intended to incorporate practically—especially in the advanced classes—the suggestion and directions of Prof. Sheppard in the instruction of this department. He will make the College another visit the ensuing year at which time the students will reap more largely the benefits of his instruction and drill.

MUSEUM OF ART HISTORY.

This collection contains sixty casts of works of Sculpture, two hundred Photographs, and the same number of Engravings. They are so selected as to represent characteristc features of the different periods of the Arts of Architecture, Sculpture, and Painting. Among the casts are:

The Apollo Belvidere—original in the Vatican, Rome.

Niobe—original in the Uffizzi Gallery, Florence.

Venus of Milo—original in the Louvre, Paris.

Polhymnia and Ancyrrhoe—originals in the Royal Museum, Berlin.

The Apostles, Peter, Paul and James, by Peter S. Visher,—originals in St. Sibaldus Church, Nuremberg.

Moses, by Michael Angelo—original in Rome.

The Nuremberg Nun. Statues of Handel and Lessing. Busts of Sophocles, Euripides, Gœthe, Schiller, and various Egyptian, Grecian, and Medieval bas-reliefs.

The Royal Museum of Berlin has also presented to the Allegheny College Casts of the celebrated Statue of Diana Colonna, Busts of Alexander the Great and Julius Cæsar, the Wackenroder Memorial, German and Roman Busts, Casts of Indian and Assyrian Sculpture, and a fine collection of original German and Classical Antiquities, consisting of German stone Hammers, Battle-axes, Drinking-vessels, and Greek and Etruscan Vases and Lamps.

A large Chinese, and also a Japanese Painting, have been presented to the Museum.

Rev. Mr. Long, Missionary to Bulgaria, has presented some Terra Cottas and Coins from Ephesus.

Friends and patrons of the College traveling abroad are invited to add to this Museum works of Art of any kind, but especially Photographs of Historical Works of Architecture, or original Antiquities of any Nation. Copies of the works of native Artists, Memorials of the late war, or any articles to illustrate the history of the Indian or European races on this Continent, will be carefully preserved. The names of the donors will be attached to all articles thus presented.

The collections will be made serviceable in teaching Art Criticism, and for purposes of illustration in the lectures upon Art and Art History.

SCHOOL OF MILITARY SCIENCE AND TACTICS.

(ORGANIZED 1877.)

REV. LUCIUS H. BUGBEE, D. D.,
President.
FIRST LIEUT. FRANK W. HESS, U. S. A.,
Professor of Military Science and Tactics.
(Assigned to duty Feb. 2, 1877.)

CADETS.

" John F. Thompson.
" William H. Wythe.
" William H White.
" Alfred R. Wright.

I. ORGANIZATION.

For purposes of Tactical Instruction the male students will be organized into a battalion of four companies, designated "A," "B," "C," and "D" Companies, Allegheny College Corps of Cadets.

The Battalion Staff will consist of
One First Lieutenant and Quartermaster,
One First Lieutenant and Adjutant,
One Sergeant Major,
One Quartermaster Sergeant,
One Color Sergeant.

Each Company shall be composed of one-fourth the total number of Cadets belonging to the Battalion, and having for company officers and non-commissioned officers, each,

One Captain,
One First Lieutenant,
One Second Lieutenant,
One First Sergeant,
Four Duty Sergeants,
Four Corporals.

These officers and non-commissioned officers will be selected by the Faculty for their soldier-like bearing and attention to and knowledge of military duty, and will hold office during good behavior and strict attention to duty.

II. PRACTICAL INSTRUCTION.

The practical instruction in this School will consist in drills of not more than one hour's duration, on three days in each week. The Cadets will be exercised and instructed during the year in the Infantry Tactics of the U. S. Army, comprising the School of the Soldier, with bayonet exercise and target practice; the School of the Company, comprising all company movements in double and single rank formation, and Instructions in Skirmishing; the School of the Battalion and in all ceremonies, forms of parade, and Reviews and Honors to be paid by troops.

A limited number of the Cadets, distinguished for their soldierly bearing and attention to military duties, will be selected for instruction in Artillery Tactics, and instruction will be given in the School of the Soldier Dismounted, comprising the Sword Exercise, Manual of the Piece, Mechanical Maneuvers, and in the School of the Battery Dismounted.

The practical instruction conveyed by means of drills will be confined for the present, largely to the Spring and Fall Terms.

III. THEORETICAL INSTRUCTION.

This will consist in recitations in Infantry Tactics, Military and International Law, and Field Fortifications; to which will be added a course of lectures on the Art of War, comprising,

1st. Composition and organization of armies, showing that of different armies, the proportion of each kind of troops in the leading armies of Europe, and a historical sketch of the Greek and Roman formations, and those of feudal times.

2d. History and description of the different kinds of Arms and Equipments and Military Machines that have been in vogue among ancient and modern peoples.

3d. On transportation of armies by land and water and their supplies.

4th. Military Bridges, including those improvised from materials found in the country.

5th. The use and history of the different Arms,—Cavalry, Artillery and Infantry.

6th. Theory of Fire, including the phenomena of combustion of gunpowder, theory of flight of projectiles, shapes and properties of projectiles, and principles of Gunnery.

7th to 10th. Principles of Military Strategy, as illustrated by familiar campaigns and battles in our own and European countries.

REMARK.—Recitation in Tactics, in the Freshman, Sophomore and Junior Years, one hour per week. Recitations in Military and International Law, Topographical Engineering and Field Fortifications, in the Senior Year, two hours per week.

SCHOOL OF PREPARATION FOR COLLEGE.

(ORGANIZED 1876.)

FACULTY.

REV. LUCIUS H. BUGBEE, D. D.,
President.

(The College Professors hear several Classes in this School).

JOHN S. McKAY, A. B.,
English, Mathematics, and Latin.

JAMES H. MONTGOMERY, A. B.,
Natural Philosophy and Physiology.

PREPARATORY SCHOOL ANNOUNCEMENT.

To supply the demand for a specific school, with a systematic and thorough course of study, adapted to the preparation of pupils for entrance to College, without loss of time, there was opened Sept. 20th, 1876, the Preparatory School of Allegheny College.

The course as laid down is three years, and will compare favorably with any similar school east or west.

This School is under the direct superintendence of the President and Faculty of the College. Teachers of known ability are employed in this school.

It is believed that no better advantages, for a thorough and direct preparation for College, can be obtained any where, than are offered here.

It is specifically a College Preparatory School—not an Academy or a Seminary,—hence in perfect harmony with other schools within our patronizing district.

Parents can send their sons and daughters here in perfect confidence that they will be cared for and placed in course of training *in the essential branches*, which will prepare them for College.

A preparation for college should be begun early, and no influences or counsel should deflect a pupil from the systematic drill and order of such a course.

Students coming who are nearly ready to enter College, or who are advanced in some studies and behind in others, can avail themselves of this Preparatory School, and bring themselves up to the grade they are competent to take in the quickest possible time.

All students entering the Preparatory School should bring letters from pastors or parents, and certificates from their teachers concerning proficiency and standing, and present the same to the President.

COURSE OF STUDY

FOR THE

PREPARATORY SCHOOL.

FIRST YEAR.

FIRST TERM.
- Latin Grammar and Lessons.
- English Grammar and Orthography.
- Arithmetic.
- Descriptive Geography.

SECOND TERM.
- Latin Grammar and Lessons.
- English Grammar and Syntax.
- Arithmetic.
- History of the United States.

THIRD TERM.
- Cæsar and Latin Composition.
- Arithmetic, finished
- English Analysis.
- Outlines of History.

Compositions and Declamations during the year.

SECOND YEAR.

FIRST TERM.
- Cæsar and Latin Composition.
- Greek Grammar.
- Elementary Algebra.
- History of Rome.

SECOND TERM.
- Sallust's Catalina and Latin Composition.
- Greek Grammar and Lessons.
- Elementary Algebra, finished.
- History of Greece.

THIRD TERM.
- Cicero's Orations and Latin Composition.
- Greek Grammar and Lessons.
- Higher Algebra
- History of England.

Compositions and Declamations during the year.

THIRD YEAR.

FIRST TERM.
- Cicero's Orations and Latin Composition.
- Anabasis and Greek Composition.
- Higher Algebra.
- Physiology.

SECOND TERM.
- Virgil and Mythology.
- Anabasis and Greek Composition
- Higher Algebra, completed, } one recita-
- Geometry, begun, } tion.
- Elements of Natural Philosophy.

THIRD TERM.
- Virgil and Mythology.
- Selections from Greek Authors and Com-
- Geometry. [position.
- Botany, begun.

Composition and Declamation through the year.

MISCELLANEOUS.

RELIGIOUS CULTURE.

The central aim of the College is to impart a sound Christian education. The religiousness of all true knowledge; the needs of the human mind in the direction of religion, in order to the highest moral manhood, are abundant reasons why Christian obligation should be abundantly inculcated in all institutions where all knowledge is taught. It will be the steady effort of the Faculty to induce all of the students to accept of and practice a religious life.

The Scriptures are read and Prayer offered mornings in the College Chapel, at which time all the Students are required to be present.

Regular attendance on some place of religious worship on the Sabbath is a requirement of the College.

The Students' Prayer Meeting will be held on Wednesday evening of each week.

Bible Classes are held every Sabbath morning in the M. E. Church and other Churches, and all of the students are invited to become members.

LECTURES.

Prof. Nathan Sheppard delivered in the Fall, a course of three popular lectures, under the auspices of the Senior Class.

Hon. Schuyler Colfax gave his lecture on Abraham Lincoln, under the auspices of the Junior Class.

Prof. Lafayette C. Loomis, of Washington, D C., lectured before the College, on "Sculpture and its Masterpieces."

These lectures were greatly enjoyed by Students, Faculty, and Citizens. Other courses of lectures will be delivered by Professor Sheppard and other gentlemen, during the next Academic Year. Prof. Tingley gives a course of popular lectures on Scientific subjects, before the students and the public.

PRIZES, 1876-7.

ORATIONS.

The Beth Gimel Lamed Prize, established in connection with the Allegheny Literary Society, was not awarded.

The Centenary Prize, established in connection with the Philo-Franklin Society, was awarded to

HYRE D. CLARK.

DECLAMATIONS.

THE CHAMBERS PRIZE, established in connection with the Philo-Franklin Society, and competed for by all its members, was awarded to

W. H. SWARTZ.

THE KEYSTONE PRIZE, established in connection with the Allegheny Literary Society, and competed for by all of its members, was awarded to

WILLIAM C. WILSON.

ESSAYS.

THE HAZELTINE PRIZE, Allegheny Literary Society, not awarded.

THE WOODRUFF PRIZE, Philo-Franklin Society, not awarded.

THE ALLEGHENY PRIZE, Allegheny Literary Society, not awarded.

THE KALAMATHEAN PRIZE, Philo-Franklin Society, not awarded.

LITERARY SOCIETIES.

There are three thoroughly organized Literary Societies: the Allegheny, Philo-Franklin, and Ossoli (the ladies' society). They have their respective Halls and Libraries. Large expenditures have been made during the last two years in fitting up these rooms by the respective societies. They are elegant in design and furnishment, and are important factors in the resources of the College. These societies hold public Literary and Prize Contests in the Chapel occasionally.

The contest between the Allegheny Literary and Philo-Franklin Societies, occurred in the College Chapel, on Tuesday evening, May 18th. This consisted of Orations, Essays, Declamations and a Debate. The contestants were:

Declamations,
- Allegheny Literary Society, "The Future of the Republic;" S. M. DECKER.
- Philo-Franklin Society, "The Death of Slavery the Life of the Nation;" J. E. ADAMS.

Essays,
- Allegheny Literary Society, "Vehicles of Thought," W. C. WILSON.
- Philo-Franklin Society, "Beyond the Alps Lies Italy," H. D. CLARK.

Orations,

Question —Should Chinese Imigration into the United States be Prohibited by National Legislation?

LIBRARY.

The College and Society Libraries contain upward of 14,000 volumes, embracing many rare and valuable works, and accessible to all students. Large additions have been made to the Library, of standard and current Literature during the present year. It is safe to say that there will be added each year to come from six hundred to one thousand volumes. New energy and life has been infused into the Library. Alumni and friends are contributing freely and gladly to its enlargement. Among the recent additions is a donation from the heirs of the late David Dick, Esq., of 760 volumes. More extensive mention of this donation will be made in a subsequent catalogue. Prof. Tingley, the Librarian, has devoted himself assiduously to the work of increasing the Library, and has succeeded finely.

SCIENTIFIC CLUB.

An impetus to scientific culture has been given by the recent organization of a Society bearing the above name. It is composed chiefly of students, and holds semi-monthly meetings. Its chief objects are the study and collection of the Natural History of the district about Meadville, which is one of extraordinary richness, both as to plants and animals. The Club also provides for regular meteorological observations, and will publish a daily bulletin containing the first Morning Weather Report from the Bureau at Washington. Several interesting lectures have been delivered before the club during the year. It has been arranged to make exchanges with the New York Aquarium. The Department of Natural History was never in so vigorous condition.

READING CLUB.

The Reading Club is an organization, composed of the members of the Faculty, students of the College, and others. Its advantages

are invaluable, and highly prized. It provides for its members all that is desirable in modern Periodical Literature, American, English, French, and German, together with Dictionaries, Atlases, Encyclopedias and other books of reference. It is accommodated in the spacious Library, and, for the ensuing year, it will be an important auxilary of the College.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

This is an active organization of the Christian young men of the College for purposes of personal improvement and direct assistance in religious meetings, which may be held in the Churches of the city, or of the surrounding country. Its anniversary will be held on the last Sabbath evening of the College year, at which time reports will be read and a sermon or addresses delivered.

EXPENSES.

The price of board has been *greatly reduced* as the subjoined statement indicates: The Board of Trustees have placed the boarding hall under the control of Prof. Reid. The co-operative system has been in successful operation for over a year; each student pays only for the actual cost of board; one hundred students were present during the past year. *The total expenses of each, for board, room rent, fuel, room cared for, and bed-linen washed*, has averaged about $10.75 per month. It is perfectly safe to say that *board, room rent, fuel, lights, care of room, and washing of bed-linen, where two students room together, will not exceed* $2.75 *per week even in the winter term.*

One hundred and twenty students can be accommodated in "*Culver Hall*," every room has been occupied during the last term.

Tuition is free in the College. The contingent fee for each student will be $10 per term. The total expense for a student during the three terms of the year, *including board, room rent, fuel, lights, washing, contingent fee, books and clothing*, with ordinary economy, need not exceed $200.

Students can board themselves, if they prefer, at from $1.50 to $2.50 per week. There are many convenient rooms adjacent which can be rented for self boarding. Board can be obtained in families at from $3.50 to $4.00 per week, including furnished room.

RECENT IMPROVEMENTS.

Extensive improvements were begun in August, 1875, involving many alterations and repairs, and the introduction of several new and much needed features. A new and beautiful Chapel 40x65 feet occupies now the entire second floor of Ruter Hall, two elegant flights of stairs and an ample vestibule make the approaches pleasant. This chapel is carpeted with cane matting, is seated with chairs, is neatly frescoed, is lighted with gas, and a superior Bradbury Piano graces the rostrum. The *new laboratories* are referred to in the department of Science. The renovated and newly furnished Society Rooms are spoken of in the article upon the Societies. The Recitation Rooms were all thoroughly repaired and painted, and are seated with chairs. The exterior of Bently Hall has been greatly improved, and arrangements are being made to beautify the Campus still further. The total cost of these improvements has been about $7,500. The old College of sixty years standing has taken on a new life and proposes a vigorous advance in all that constitutes a well appointed institution of Learning. The Patronage of the last year over the previous one has been at least 75 per cent.

YOUNG LADIES' HALL.

Young women are now admitted to the different courses of study in the College, and are entitled to all the privileges and honors of the same.

The fact of such admission has determined the authorities of the College to provide a Hall for all who come from a distance, where home comforts, protection and care can be had, while they are pursuing the various departments of instruction.

The *entire* expense of Board, Fuel, Lights, and Room Rent—Rooms furnished—will not exceed $3.00 per week. Contingent Fee, $10.00 per term.

One hundred young women can and should avail themselves of the *rich and varied resources* of the College, in order to a thorough and satisfactory culture since the expenses are so reasonable.

If instruction in music or art is desired it can be obtained at *reasonable rates* and of teachers who are masters in these branches. *Correspondence with the President concerning any department will receive prompt attention.*

SUMMARY OF STUDENTS.

THE COLLEGE:

Senior Class,	12	
Junior Class,	15	
Sophomore Class,	12	
Freshman Class,	32	
		71

SCHOOL OF MILITARY SCIENCE:

Staff Officers,	2	
Company A,		
Officers,	11	
Privates,	27	
	38	
Company B,		
Officers,	11	
Privates,	25	
	36	
		76

SCHOOL OF PREPARATION FOR COLLEGE:

Third Year,	22	
Second Year,	50	
First Year,	63	
		135
Total in the Schools,		282
Mentioned twice,		76
		206

CALENDAR, 1877-78.

1877.

April 4, Tuesday, Spring Term began.

June 21, Thursday, Examinations begin.

June 23, Saturday evening, Anniversary of Ossoli Literary Society.

June 24, Sunday, 11 A. M., Baccalaureate Sermon.

June 24, Sunday evening, Sermon before Y M C Association.

June 25, Monday evening, Anniversary of Philo-Franklin Literary Society.

June 26, Tuesday evening, Annivery of Allegheny Literary Society.

June 26, Tuesday, 3 P. M., Annual Meeting of Board of Control.

June 27, Wednesday, 10 A. M., Annual Meeting of Board of Trustees.

June 27, Wednesday, 4 P. M., Annual Meeting of the Alumni.

June 27, Wednesday evening, Anniversary and Address before Alumni Association.

June 28, Thursday, 9 A. M., *Commencement.*

Vacation Twelve Weeks.

Sept. 19, Wednesday, 9 A. M., Fall Term begins.

Dec. 19, Wednesday, Fall Term ends.

Vacation Two Weeks.

1878.

Jan. 3, Thursday Winter Term begins.

Jan. 31, Thursday, Day of Prayer for Colleges.

Feb. 22, Friday, Washington's Birth-day Anniversary.

April 3, Wednesday, Winter Term ends.

April 4, Thursday, Spring Term begins.

June 27, Thursday, *Commencement.*
